

КИРИН ® - Везни, Аналитични везни, Влагомерни везни, Лабораторни везни, Прецизни везни

[AMB Moisture Balances](#) [[More info](#) »Capacity: 50g]

The AMB moisture balance is a precision device for the determination of moisture content in small samples of materials by drying the sample with halogen heaters.

[PW Analytical Balances](#) [[More info](#) »Capacity: 120g-250g]

The PW series of Analytical Balances are designed to meet the needs of Laboratories, Schools, Industry and commercial users offering a wide range of applications.

[AQ Mechanical Balances](#) [[More info](#) »Capacity: 311g]

The AQ Balance is a low cost mechanical balance, which meets the requirements for high precision and reliable weighing in laboratories, schools and industry.

[TBB - Triple Beam Mechanical Balances](#) [[More info](#) »Capacity: 2610g]

The TBB - Triple Beam series are low cost mechanical balances, which meet the requirements

[ACBplus Compact Balances](#) [[More info](#) »Capacity: 150g-3000g]

The ACBplus is a lightweight, rugged precision compact balance suitable for a wide range of weighing applications .

[PGW Precision Balances](#) [[More info](#) »Capacity: 150g-4500g]

The PGW Series of Precision Balances are designed to meet the needs of Laboratories, Schools, Industry and commerc

[AQT Series Compact Balances](#) [[More info](#) »Capacity: 200g-5000g]

The AQT is an economically pri

[ADK Precision Balances](#) [[More info](#) »Capacity: 10kg-20kg]

The ADK series are high capacity and high accuracy precision balances which are ideal for many applications such as parts

[QBW Weighing Scales](#) [[More info](#) »][Capacity: 1500g-30kg]

The QBW series is ideal for a wide range of weighing applications.Capacity: 1500g-30kg]

The QBW series is ideal for a wide range of weighing applicati
